

Origami Shirt

4" x 6" paper

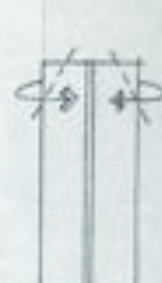

Score 1" from each side. (Use a light touch!) Your center line will be an imaginary guide — don't really make a fold there.

Valley fold toward the center line

Score lightly $7/16$ " from top edge — that's one little tick mark before the half-inch mark. Fold this toward the back (the back is the smooth side.)

Bring up top corners together toward the center

Fold the bottom corners off the center line

Bring bottom of paper up to fit under the collar

Completed Shirt
